Talent Acquisition Team
AMITI Career Fair
SAP SuccessFactors Talent Pipeline

Dear Talent Acquisition Team,

I am writing to express my strong interest in joining your talent pipeline through the AMITI Career Fair. As an active Computer Science student at BUAP with a robust foundation in software development, data analytics, and IT support, I am eager to connect with future opportunities that align with my versatile technical background.

Throughout my academic and early professional journey, I have cultivated a diverse and adaptable skill set. As a Project Lead for the "SWAP IT" circular economy platform and Technical Lead at the BAM Hackathon, I successfully applied Scrum methodologies, guided multidisciplinary teams, and built robust ETL pipelines for data extraction and visualization. Furthermore, my ongoing role at the Comprehensive Computer Service Center (CSIC) has equipped me with hands-on experience in hardware troubleshooting, systems administration, and direct user support.

Complemented by my recent IBM SkillsBuild (Data Analytics & AI) and Microsoft Excel Expert certifications, I am a proactive problem-solver ready to tackle complex challenges in dynamic technological environments. I am highly motivated to bring my technical expertise, adaptability, and leadership skills to your organization.

Thank you for considering my profile for future roles. I look forward to the possibility of contributing to your team's success.

Sincerely,

Israel Morante Luna
